Summary

As a Product Designer, I create intuitive digital experiences through clean UI design and user research. I am passionate about learning and solving user problems with functional and visually appealing designs.

Work Experiences

Product Designer

April 2025-present

Panah

Managed the **complete UX/UI design lifecycle** for a Native **Android Application** and a **Web Application**.

Designed all interfaces, wireframes, and the logical Information Architecture for both platforms.

Developed **foundational** UI standards and libraries to ensure visual consistency and streamlined delivery.

Partnered with Stakeholders and Engineering to translate objectives into high-quality, **feasible solutions**.

UX-UI Designer

April 2024-March2025

Makeen ideal Media INS.

Contributed to the UX/UI design of high-impact products in the **finance** and **commerce** sectors.

Designed the user experience for a **Loan Fund Panel**, prioritizing security and operational clarity.

Developed the UI/UX for a Store application, optimizing critical user flows (e.g., checkout and browsing).

Delivered all design artifacts (wireframes, prototypes, and final assets) in **collaboration** with technical teams.
